## **AMENDMENT**

TECH CENTER 1800/2000

Applicants are in receipt of the Office Action dated June 18, 2002. Please amend the above-identified application as follows.

## IN THE CLAIMS

28. (amended) A method for promoting the take of a graft in non-mineralized tissue, the method comprising administering to a mammal in need thereof a prophylactically effective amount of an active enamel substance.

- 41. (twice amended) A method according to claim 28 wherein the active enamel substance is enamel matrix, enamel matrix derivatives, enamel matrix proteins, or mixtures thereof.
- 42. (twice amended) A method according to claim 28 wherein the active enamel substance is selected from the group consisting of enamelins, amelogenins, non-amelogenins, proline-rich amelogenins, amelins and tuftelins, and derivatives of said substances.
- 55. (amended) A method according to claim 54 wherein the pharmaceutically or cosmetically acceptable excipient is propylene glycol alginate.
